

AK-150MFC Kit

AIR-COOLED

Accessory Kit

9/2008 WCO109

- 24, 24-90 heads—80 amp DC, 60 amp AC at 60% duty cycle
- 9-70, 9-90, 9P heads—125 amp DC, 90 amp AC at 60% duty cycle
- 1726, 1726P heads—150 amp DC, 105 amp AC at 60% duty cycle

The all-in-one option for superior TIG performance!

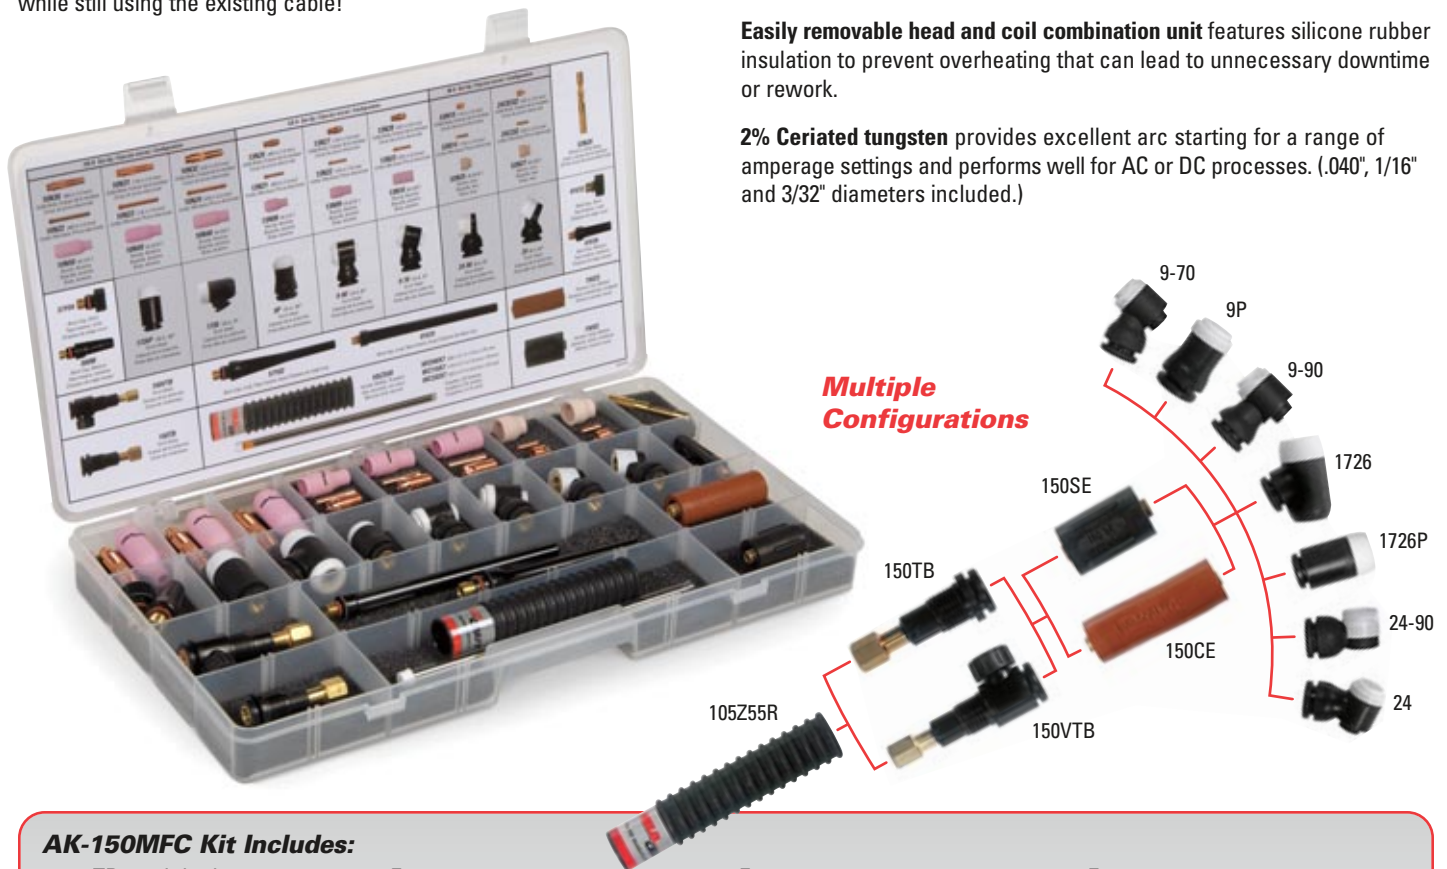

Weldcraft's AK-150MFC (Modular Flex Complete) Kit allows welding operators to customize their standard WP-17 Series TIG torch for their specific application, saving time, money and the hassle of changing over torches. In fact, the kit converts into 28 different torch styles while still using the existing cable!

All-in-one kit features collets, collet bodies, nozzles, torch heads, handle and more to simplify inventory and storage, and reduce parts costs.

28 configuration options eliminate the need to purchase and carry extra torches, and reduce downtime associated with torch changeovers.

Easily removable head and coil combination unit features silicone rubber insulation to prevent overheating that can lead to unnecessary downtime or rework.

2% Ceriated tungsten provides excellent arc starting for a range of amperage settings and performs well for AC or DC processes. (.040", 1/16" and 3/32" diameters included.)

AK-150MFC Kit Includes:

- 150TB torch body
- 150VTB torch body
- 150CE element, coil
- 150SE element, solid
- 105Z55R handle
- .040", 1/16", 3/32" Ceriated tungsten electrodes

For 80-amp set-up

- 24 (60° torch head)
- 24-90 (90° torch head)
- 53N20 wrench
- 1/16", 3/32" collet and collet body
- #5, #6 lava nozzles

For 125-amp set-up

- 9-70 (70° torch head)
- 9-90 (90° torch head)
- 9P (180° torch head)
- .040", 1/16", 3/32" collet and collet body
- #4, #5, #6 alumina nozzles
- Back caps—short, medium and long

For 150-amp set-up

- 1726 (70° torch head)
- 1726P (180° torch head)
- .040", 1/16", 3/32" collet and collet body
- #4, #5, #6 alumina nozzles
- Back caps—short, medium and long
